

STOP MANUFACTURE AND SALE OF PISTOLS, LAWYERS ADVISE

Weapon Serves No Useful Purpose in Community and 90 Per Cent of Crimes Are Committed With It, Report Says; Other Recommendations Made for Law Enforcement

SAN FRANCISCO, Cal., August 10.—(By the Associated Press.)—Declaring that the pistol "serves no useful purpose in the community today," the committee on law enforcement included in its recommendations submitted to the American Bar association Wednesday one for the prohibition of the manufacture and sale of pistols and of cartridges or ammunition designed to be used in them. "Save as such manufacture shall be necessary for governmental and official use under proper legal regulation and control."

"We find that more than 90 per cent of the crimes in this country are committed by the use of pistols," continued the report of the committee, of which Judge William B. Swaney of Chattanooga, Tenn., was chairman. "We find that the laws prohibiting the carrying of firearms or deadly weapons are ineffective—in fact, that they work to the benefit of the criminal rather than the law-abiding citizen."

Other members of the committee were Judge Marcus Kavanagh, Chicago; former Governor Charles S. Whitman, New York; Wade H. Ellis, Washington, D. C.; and Charles W. Farnham of St. Paul.

U. S. IN BAD WAY

"The criminal situation in the United States, so far as crimes of violence are concerned, is worse than that of any other civilized country," the report said. "Here there is less respect for law. From all available sources of information, we estimate that there were more than 9500 unlawful homicides last year in this country; that 1320 there occurred not less than 6000 such homicides, and that in no year during the last ten years did the number fall below 8500. In other words, during the last ten years no less than 85,000 of our citizens have perished by poisons, by the pistol or the knife, or by some other unlawful and deadly instrument."

"Burglaries have increased in this country during the last ten years 1200 per cent."

DEBILITATE MURDER, BURGLARY AND ROBBERY

"Deliberate murder, burglary and robbery will seldom be attempted unless the criminal is armed. In European countries the criminals, as a rule, are not armed."

"On the other hand, in crimes which indicate the dishonesty of the people, such as larceny, extortion, counterfeiting, forgery, fraud and other crimes of swindling, a comparison of conditions demonstrates that the morals of this country are better than in any other of the large countries of the world."

"It is our united opinion that the means provided in the United States for coping with crimes and criminals are today neither adequate nor efficient, for example:

PAROLE LAWS FAIL

"First, we find that the parole and probation laws, as administered, very generally fail to accomplish the purposes for which the laws were designed and weaken the administration of criminal justice. We recommend that the indeterminate sentence laws should be modified so as to apply to first offenders only, and we believe, too, that neither probation nor parole should be permitted those convicted of homicide, burglary, rape or highway robbery."

"Second, we find that more than 90 per cent of the murders in this country are committed by the use of pistols."

"Third, we find the causes for delay in criminal cases so varied and the conditions so differing that we hesitate to make specific recommendations. Dilatory motions and many other causes for delay, all accrued to the benefit of the law breaker."

"We recommend that every state be given every right to appeal now enjoyed by a defendant—except from a verdict of not guilty, and shall have the right to call the attention of the jury to the fact that the defendant has failed himself to contradict or deny testimony offered by the prosecution."

BUT ONE APPEAL

"We recommend that the state be given the right to amend the indictment upon proper terms, in matters of form."

"We recommend that there should be but one appeal from a judgment of conviction in the trial court."

"We recommend that there be enacted legislation limiting the time during which judges or courts may hold under advisement dilatory motions made in criminal trials; that at the expiration of such time, without action, such a motion shall be deemed to be denied."

"Fourth, we find that in some of the states the jury is the final judge both of the law and the facts. We believe that such a condition is absolutely subversive of a government of law and we recommend the repeal of such statutes."

"Fifth, we find in various jurisdictions glaring abuses in the matter of bail, both in the amounts imposed and in the efficiency of security offered."

LYNCHING OPPOSED

"Sixth, we find that further legislation should be enacted by the congress to punish and prevent lynching and mob violence."

"Seventh, we find that more stringent laws limiting and controlling immigration should be enacted and enforced."

"Eighth, we find that the bill now pending in the congress, increasing the number of United States district judges and conferring powers upon the chief justice and senior circuit judges to have supervision over the work of the courts and see that the dockets are kept clear, should be enacted."

"Ninth, no meritorious case, whether civil or criminal, that is cognizable in the courts of the country, ought to be denied the services of an able, courageous and loyal advocate. And no man or woman, however humble, ought to be able to say in any American community that justice is too expensive for the poor. We therefore urge that in every community the members of this organization volunteer to aid, without fee, the worthy poor who are being oppressed, defrauded or otherwise wronged, and who have not the means to employ counsel."

"Tenth, first offenders must be segregated from veteran criminals for the jails throughout the land today are breeding places for crime, and the young and thoughtless, who may often be reclaimed, are taught by professional criminals to scorn the restraints of society; and in this connection we may well consider the extension of psychopathic laboratories established as adjuncts to the criminal courts."

District Attorney Fails to Alter Story of Mabel Belarde

WRITE IN SKY; PRINT BY RADIO

Latest Development Big Step Forward in Communication

WASHINGTON, Aug. 10.—Typewriting in an airplane flying among the clouds, with radio machinery duplicating the letter at a ground station miles away and sending the message off in a beam of light, is a development announced today by the navy department as giving to naval aircraft "a means of communication in advance of radio telegraph and telephone systems now in current use."

Successes already attained by experts working in conjunction with the navy, the department asserted, assures the practical utility of the new scheme. That with a development will be of incalculable value to all forms of aviation, commercial and military, follows inevitably on the heels of the work now being done by the navy.

LOOKS LIKE TYPEWRITER

The device has been named the "teletype." It resembles the commercial typewriter, in that a keyboard having the letters of the alphabet and other symbols on it is arranged for hand operation. Each key is connected to the radio installation in the plane and when a letter is struck, a radio impulse is flashed from the antenna on the plane to the receiving stations below, where the letter is reproduced on paper.

MAY ALSO RECEIVE

A reversal of the operation so that the plane can receive messages from ground stations, is said to be only a matter of detail.

"This," the statement said, "will be a marked step in advance in that it will allow explicit directions to scouting and combat units in flight by the commander in chief of the fleet and will enable scouts and other types of planes to convey accurate and detailed information to the high command."

MOTORLESS PLANE IN AIR 80 SECONDS

CLERMONT, France, Aug. 10.—(By the Associated Press.)—Seven flights were made Wednesday in the competition of the international experimental congress of motorless airplanes by Edmund Allen, the American gliding expert. He made three flights in the morning and four in the afternoon. His average time in the air was more than one minute. His shortest flight was 44 seconds and his longest 80 seconds, the latter being the best single flight of the congress up to date. In another flight he remained in the air for 72 seconds.

Allen's glider on several occasions rose above the starting point, once about 40 feet. His total official time in the air is now seven minutes, 36 seconds. He has made perfect landings after all his flights, notwithstanding the rough field.

SAVAGE TO COACH U. OF WASHINGTON

SEATTLE, Wash., Aug. 10.—Anthony Savage, graduate of the University of Washington and former coach at the College of New Mexico and at the Lincoln high school of this city, today was appointed athletic mentor of the freshman class at his alma mater. Savage succeeded R. L. Mathews, now head coach at the University of Idaho.

railroad and the fuel company. "He performed," Foster said, "and the rangers threw me out of Colorado." At the time of the expulsion General Hamrock said that Foster was removed from the state "for the best interests" of the commonwealth.

Foster addressed a local labor meeting last night.

Chief Justice of the United States William Howard Taft and the supreme court were termed "tools of Wall street" by Foster in his address.

Foster denounced General Hamrock as a "slave of capital" and "minion of the interests." He said Hamrock got his orders from the Union Pacific railroad and the Colorado Fuel & Iron company.

Foster jeered at the slogan "saving the world for democracy," used during the late war with Germany.

He said that the laboring class had been "throttled" as a result of the war. Foster was cheered enthusiastically.

He devoted considerable time to condemnation of the "capitalist press" which, he declared, was untruthful and unfair to union labor. He praised the railroad strikers and the striking coal miners.

NOTE INCREASE IN PAY OF CLERGYMEN

CHICAGO, Aug. 10.—A horizontal increase in the salaries of Episcopal clergymen during the past two years, ranging from 10 to 35 per cent, was noted in the statement of the nationwide campaign department of the church, which was made public last night.

"Salaries have been increased twice during this period, the total increase amounting to \$1,418,000 and for 1921 to \$997,000, these figures being based on reports of the church pension fund into which various churches pay premiums based on the amount of salary protected the clergy."

The report said "In the case of married men the standard salaries prior to the campaign were given as from \$1000 to \$1500, while now they range from \$1500 to \$2000 plus."

The scale for single men is lower. The highest salary paid to a rector comes from the diocese of New York and totaled \$18,000."

LA FOLLETTE RAPS ESCH-CUMMINS LAW

MILWAUKEE, Aug. 10.—Senator Robert W. La Follette opened his political drive here Wednesday by an attack on the Esch-Cummins railroad law and a review of his political battles in this state since he was first elected to the office of governor, 22 years ago.

He outlined his plan for eliminating "trusts," attacked the secrecy clause of the state income tax law and declared that he was in possession of a list of state corporations that had defrauded the state of taxes by false returns under the income tax law.

Many of these who are supporting his opponents, he asserted, were to be found on this list. La Follette also asserted that among his opponents in this campaign were to be found many who had opposed his legislative program in this state for the last 20 years. He also attacked the press as being "controlled."

EXPOSES METHODS OF LABOR LEADERS

CHICAGO, Aug. 10.—How a strike was called, "fixed" and ended in less than 48 hours with the payment of \$1500 in cash and a signed contract was told in court Wednesday by a witness at the trial of four alleged labor extortionists. The witness was Edward Drowaski, a builder, and his testimony was aimed at Thomas Walsh, Frank Hayes, Roy Shields and Peter Kane. The witness said that Walsh called the strike and that the adjustment was made by Hayes, after which Walsh told him that if he had been "careful and on the level" the price would not have been so high.

DECLARES DRY LAW CITIZENSHIP

SPRINGFIELD, Ill., Aug. 10.—Bishop Thomas Nicholson of the Anti-Saloon League of America, addressing an assembly meeting last night, declared the "greatest test of loyal citizenship that has ever been made, and that the greatest propaganda ever known was to set aside that fundamental ideal," he said, "that unprincipled group must be broken up."

Bishop Nicholson endorsed the action of the proposed state constitution which would permit bible reading in the public schools of Illinois.

RALEIGH SAILORS ARE STILL MISSING

ST. JOHN'S, N. F., Aug. 10.—Members of the crew of the cruiser Raleigh, trace of whom was lost when the warship went ashore the coast of Labrador. Witnesses were still missing today.

The Raleigh ran aground in a fog, and it is hoped that the crew will be found at some other point along the coast of Labrador.

The cruiser rests easy with her nearly submerged.

WILLS WILL FIGHT WITH BUD JACK

NEWARK, N. J., Aug. 10.—Wills, negro challenger for Dempsey's heavyweight boxing title, has been signed by his manager, Rick Mullins, for a contest here Aug. 21 with Bud Jackson, Newark boxer, it was announced today.
